Section 6.2 Revisions to the 2015 Edition of the Code.

The following sections of the Fire Code are hereby revised as follows:

Section 101.1. Title. This Article may be known as the Fire Code of the Village of Caledonia, hereafter referred to as “this Code.”

SECTION 108 BOARD OF APPEAL

Section 108.1 Board of Appeals. A board of appeals will hear and decide appeals of orders, decisions, or determinations made by the *fire code official* relative to the application and interpretation of this code. The board shall adopt rules and procedures for conducting its business, and shall render all decisions and findings in writing to the appellant with a duplicate copy to the *fire code official*.

For purposes of this Section, the term “subsequent offense” means a violation of this Article committed with respect to a separate incident by the same person within 12 months of a previous violation of the Article for which said person admitted responsibility or was adjudicated to be responsible. Each day that such violation occurs shall constitute a separate offense.

(b) Any building or structure which is erected, altered, maintained or used or any use made of land or uses thereon changed, in violation of the terms of this Article, is declared to be a nuisance per se and shall be abatable by a court of competent jurisdiction.

(c) The issuance of a municipal civil infraction citation and the imposition of fines against the violator shall not prohibit the Village from also seeking injunctive or other relief against the violator in a civil action, in order to abate the violation or to seek such other relief as provided by law. In a proceeding for injunctive or other relief, the violator shall be responsible for all costs, damages, expenses and actual reasonable attorney fees incurred by the Village, and shall be subject to all other remedies provided to the Village by law.

Storage of Class I and Class II liquids in above-ground tanks outside of buildings is prohibited in the Village of Caledonia unless approved by the *fire code official* and such storage complies with all other applicable laws. The provisions of this code shall not be deemed to nullify any other ordinance of the Village of Caledonia or

other regulations pertaining to the storage of Class I and Class II liquids in above-ground tanks outside of buildings. Where code provisions for the storage of Class I and Class II liquids in above-ground tanks outside of buildings are in conflict, the most rigid requirements shall apply.

Section 5706.2.4.4. Locations Where Above-Ground Tanks Are Prohibited. Storage of Class I and Class II liquids in above-ground tanks outside of buildings is prohibited in the Village of Caledonia unless approved by the *fire code official* and such storage complies with all other applicable laws. Within the limits established by law restricting the storage of liquefied petroleum gas for the protection of heavily populated or congested areas, the aggregate capacity of any one installation in the Village of Caledonia shall not exceed a water capacity of 2,000 galleons (7570 L). The imposition of one penalty for violation shall not excuse the violation or permit it to continue; and all such persons shall be required to correct or remedy such violations or defects within a reasonable time; and when not otherwise specified the application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions. Each day that prohibited conditions are maintained shall constitute a separate offense.

Exception: In particular installations, this capacity limit shall be determined by the *fire code official*, after consideration of special features such as topographical conditions, nature of occupancy, and proximity to buildings, capacity of proposed LP-gas containers, degree of fire protection to be provided and capabilities of the local fire department. The provisions of this code shall not be deemed to nullify any other ordinances pertaining to the storage of liquefied petroleum gas.

Section 6.4 Fire Apparatus Access Roads.

Appendix D is hereby amended by the deletion of Section D107. When the remaining provisions of Appendix D are inconsistent with the Village Zoning Ordinance, the more stringent provision shall apply.

No person shall fail to obey such direction.

Section 6.6 Other Applicable Laws.

No person shall violate any law of the State of Michigan or any other rule or regulation adopted by a duly authorized agency of the state or Kent County pertaining to fire hazards, fire prevention or fire extinguishing.

(a) The Village shall have the right to plant, prune, maintain and remove trees, shrubs and plants lying within the boundaries of all public streets, alleys, lanes, parks and other public lands as may be necessary to insure or promote public safety, health and welfare, or to preserve or enhance the symmetry, beauty and usefulness of public parks and other public lands.

(b) The Tree Board may remove or cause to be removed any tree or part thereof which is in an unsafe condition or which by reason of its nature is injurious to sewer lines, water lines, electric power or gas lines or other public improvements or which is affected with any injurious fungus or other disease or insect or other pest. This subsection shall not, however, prohibit the planting of street trees by adjacent property owners, provided, however, that the selection and locating of such trees shall comply with subsections 3 and 4 of this Ordinance.

(6) **Topping of Trees.** It shall be unlawful for any person to top any street tree, park tree or other tree on public property without the prior written consent of the Tree Board. For purposes of this subsection, the topping of a tree is defined as the severe cutting back of the limbs of the tree to substantially shorter limbs or stubs within the crown of the tree, to such a degree as to remove the normal canopy of the tree and to disfigure the tree, in whole or in part. However, trees that have been severely damaged by storms or other causes, or trees that are located under utility wires or other obstructions, and where other pruning practices are impractical, are exempt from the provisions of this subsection, upon the prior determination of the Tree Board.

(7) **Pruning of Trees Overhanging Streets, etc.** Every owner of any tree overhanging in any street, alley or right of way within the Village shall prune the branches of the tree so that the branches will not obstruct the light from any street lamp or obstruct the view of any street intersection, and so that there shall be a clear space of at least eight feet above the surface of the street or sidewalk. The owners of trees shall remove all dead, diseased or dangerous trees or broken or decayed limbs which constitute a menace or interference to the safety of the public. The Village will have the right to prune any tree or shrub on private property when it interferes with the proper dispersal of light along the street from a street light or interferes with the visibility of any traffic sign or traffic control device.

(8) **Removal of Dead or Diseased Trees.** The Village shall have the right to cause the removal of any dead or diseased trees on private property within the Village, when any such tree constitutes a hazard to life and property or harbors insects or diseases which constitute a potential threat to other trees within the Village. Upon determining that a tree satisfies these requirements, the Village Tree Board shall notify in writing the owner thereof, and shall state in writing the necessity

for the owner to remove the tree and specify the period of time within which removal must occur. Such removal must be completed by the tree owner at the owner's expense within 60 days after the date of the mailing of such notice. In the event of the failure of the owner to comply with such notice, the Village shall have the authority to remove such tree and, where permitted by law, to charge the cost of removal to the owner, to impose a lien upon the owner's property or to include the cost of such removal within the real property taxes otherwise required to be paid by the owner of such property.

(9) **Removal of Stumps.** All stumps of street trees and park trees shall be removed below the surface of the ground, so that the top of the stump shall not project above the surface of the ground.

(10) **Interference with Tree Board.** It shall be unlawful for any person to prevent delay or interfere with the Tree Board or any of its agents while they or any of them are engaged in and about the planting, cultivating, mulching, pruning, spraying or removing of any street tree, park tree or tree on private lands, consistent with the terms of this Ordinance.

(11) **Arborist License.**

(a) It shall be unlawful for any person or firm to engage in the business or occupation of pruning, treating or removing street trees or park trees within the Village without first applying for and obtaining an arborist license, under the applicable provisions of Chapter 9 of the Ordinance Code. The fee for such license shall be determined by resolution of the Village Council. However, no such license shall be required of any employee or agent of the Village or of any public utility company or agent or employee thereof, for the performance of such work in behalf of the Village or of public utilities, as the case may be.

(b) Before the issuance of any arborist license, the applicant shall first file with the Village Clerk satisfactory evidence of public liability insurance in the minimum amount of \$100,000 of coverage for bodily injury and \$100,000 of coverage for property damage, indemnifying the Village or any person injured or any person sustaining property damage, resulting or in any way arising out of the applicant's business, operations or activities in the pruning, treating or removing of street trees or park trees within the Village, whether or not such activities are in compliance with this section.

(12) **Appeal to Village Council.** Any person aggrieved by a ruling, order or other decision of the Tree Board may file an appeal of the same with the Village Council, by submitting such appeal in writing to the Village Clerk not later than 14 days after the ruling, order or decision complained of. Any such appeal filed after such period of time shall not be effective. The Village Council shall have the right to hear any such timely filed appeal and shall have the right to review any conduct, acts, decisions, rulings or orders of the Tree Board thus appealed to the Council. The Council shall set a date, time and place for the hearing of the appeal and shall give at least seven days notice by ordinary mail of such date, time and place of hearing, to the person filing the appeal. At the hearing, the person submitting the appeal shall have opportunity to address the Village Council and to state the basis for the appeal, and otherwise to comment on it. Other interested persons shall be heard as well. After the hearing, the Village Council may in its discretion affirm, reverse or modify in whole or in part the act, conduct, ruling, order or decision of the Tree Board.

The owner or occupant of any lands within the Village on which such weeds are growing or located, shall cut or remove the same.

(2) The Village Manager or Village Council shall serve, or cause to be served, a notice upon the owner or occupant of any premises on which any such weeds are permitted to grow in violation of the provisions of this Ordinance, and to demand the abatement of such nuisance within 10 days. If the person so served does not cut or remove such weeds within 10 days, the Village Council may proceed to abate the nuisance, keeping an account of the expenses therefor. Such expenses shall be charged and paid by the owner or occupant of the lands involved. Such expenses and charges for weed removal shall be a lien upon the premises. Notice of such lien shall be mailed to the owner of such premises at the last known address of such owner. The charges for such weed cutting, and the lien thereof, may be added to the property tax bill of the lands involved, and such amounts may thereby be assessed and collected in the same manner as real estate taxes with respect to such lands.

Section 8.4 Animals.

(1) No person shall keep cattle, swine, sheep, mules, donkeys, burros, horses, goats, chickens, pigeons or more than three adult rabbits within the limits of the Village of Caledonia; provided, however, that this provision shall not apply to lawful farms on lands in the AG Agricultural District under the terms of Section 5.2(a) of the Village Zoning Ordinance; and provided further, that this provision shall not apply to the periodic grazing of sheep and goats for the control of grasses and other vegetation on lands in the AG Agricultural District under the terms of Section 5.2(h) of the Village Zoning Ordinance.

Any dog within the Village limits running at large and not upon the premises of its owner or custodian and unaccompanied by the owner or custodian shall constitute a public nuisance.

(4) Any dog found running at large may be impounded by the Kent County Sheriff's Department or by any police officer. Any dog so impounded may be turned over by the Kent County Sheriff's Department to the Animal Control Officer of the County of Kent, for such control and disposition as is provided by law.

The person in charge of any place where alcoholic liquor is sold shall have the right at any time to demand of any person offering to buy, buying or obtaining any alcoholic liquor, satisfactory identification of the age of such person, and on failure of such person to show such satisfactory identification, such person in charge may refuse to serve such person with any alcoholic liquor, and may exclude such person from such place of business. If any person shall then refuse to leave such place of business, he shall be deemed a disorderly person.

(5) No licensee shall permit his premises to be occupied by patrons or customers for more than 30 minutes after the required hour of closing as set forth above.

Nor shall any person cast, throw, shovel, sweep, sift or deposit any of said items anywhere within the Village in such manner that the same may be carried or deposited in whole or in part by the action of the sun, wind, rain or snow into any of the aforementioned public or other places. The shoveling, plowing, blowing or depositing of snow, slush or ice into the public street is specifically prohibited because of the danger such accumulations, if they freeze, may cause to snow plow operators and equipment and to the traveling public. This section shall not apply to the deposit of material under a permit duly authorized by any ordinance of the Village, the seasonal depositing of leaves at the curbside during the week prior to scheduled Village leaf-pickup services, or to articles or things deposited in or conducted into the Village sewer system through lawful drains in accordance with the ordinances of the Village relating thereto.

(2) It shall be unlawful for any person to use any vehicle to haul any kind of dirt, rubbish, waste article, debris, garbage or other waste substance, whether liquid or solid, unless such vehicle is covered to such extent as to prevent any part of its load from spilling or dropping while such vehicle is in motion on any street or alley within the Village. This requirement shall not apply to vehicles carrying brush cuttings, tree trimmings, branches, logs and similar waste material if such matter is securely fastened to such vehicle to prevent spilling or dropping as stated above.

Section 8.11 Storage of Personalty.

(1) Unsheltered storage of old, unused, stripped, junked and other automobiles and parts thereof not in good, safe and operating condition, and storage of any other vehicles, machinery, implements and/or equipment and personal property of any kind which is no longer safely usable for the purposes for which it was manufactured (collectively herein described as said personalty), for a period of 30 days or more, within the limits of the Village, is hereby declared to be a nuisance and dangerous to the public safety.

(2) The owner or owners, tenants, lessees and/or occupants of any lands within the Village upon which such storage is made, and also the owner or owners and/or lessees of said personalty involved in such storage shall jointly and severally abate such nuisance by the prompt removal of said personalty into completely enclosed buildings authorized to be used for such storage purposes, or otherwise to remove the same to a location outside the Village.

(3) If said owners or other persons allow said nuisance to exist or fail to abate the same, they and each of them shall be deemed in violation of this Ordinance and upon conviction thereof shall be subject to the penalties prescribed in this Code.

(4) Whenever said owners or other persons fail to abate such nuisance, then the Village shall remove such personalty to another location, and the expenses for such purpose shall be billed to said owners or other persons, jointly and severally, such expenses to be recoverable in an appropriate action at law.

Section 8.12 Public Nuisances.

(1) Whatever annoys, injures or endangers the safety, health, comfort, convenience or repose of the public; interferes with, obstructs or renders dangerous any public place, street, highway, navigable lake or stream; or in any way renders the public insecure in life or property, is hereby declared to be a public nuisance.

The cost of abatement by the Village of any nuisance may be collected in an action at law from the owner, occupier or possessor of the property upon which the nuisance was committed, created or maintained. In all cases where the Village shall incur any expenses for draining, filling or otherwise taking action with respect to any lot, place or premises, or for removing any unsafe building or structure, or for removing or abating any nuisance found upon any such lot or premises, the Village Council may, in addition to all other remedies provided for the recovery of such expense, charge the same or any part thereof upon said lot or premises and cause the same

Section 8.13 Dangerous Structures.

(1) No person shall maintain any structure which is unsafe or which is a menace to the health, safety or welfare of the public.

(2) After investigation, the Village Council may condemn any such structure by giving notice to the owner, occupant or possessor of the land upon which such structure is located in the manner provided in Section 1.15 of this Code, specifying in what respects said structure is a public nuisance and requiring the owner or other person to whom such notice is directed to alter, repair, tear down or remove the same within five days after service of said notice.

(2) Barbed wire fencing or strands of barbed wire may be placed and maintained on lands or along the boundary of lands occupied in whole or in part by electrical transmission substations, above-ground natural gas transmission equipment, sanitary sewage treatment ponds and related facilities and governmentally approved landfills.

Section 8.15 Smoke.

No person who is responsible therefor shall permit the emission from any chimney or smokestack of dense smoke or smoke containing soot or other substance in sufficient quantity as to noticeably permit the deposit of soot or other substance within the Village. (5) **Transfer.** Any permit issued hereunder shall be personal to the applicant and shall not be assigned or transferred to any other person, firm, corporation or association. Any such attempted assignment or transfer shall render the permit void and of no further effect.

(6) **Revocation.** If after notice and hearing the Village Council shall determine and make findings of fact that any permit holder or any agent or representative thereof is making or has made any false statements or misrepresentations to any member of the public with regard to the campaign or other activities described in the permit, or has made false statements or misrepresentations in the application, or has in any way publicly represented that the permit granted is an endorsement or recommendation of a cause for which the campaign is being conducted, or has violated any of the terms of the permit, then the Village Council shall revoke the permit.

(7) **Fees.** By resolution the Village Council shall establish and shall charge a fee for an application for a permit under the terms of this section. Such fee shall be nonrefundable, and shall be paid by the applicant at the time of the filing of the application. - (2) The side lines of lots shall be approximately at right angles or radial to the street upon which the lots face.
- (3) All lots shall conform to the requirements of the zoning ordinance for the zone in which the plat is located. This Ordinance shall not be construed as providing for lots smaller than as specified in the Zoning Ordinance. If public water and sewer are available, the provisions of the Village Zoning Ordinance shall override Section 186 of Act 288.
- (4) Corner lots for residential use shall have the minimum required frontage on both streets adjacent to the lot.
- (5) The maximum depth of a lot shall be not more than 3 times the width of its frontage, except where a greater depth in relation to width of frontage is necessary, appropriate or desirable because of topography or other natural features of the land.

Section 11.18 Usable Land.

All land shall be platted such that it is usable for building lots or required improvements. Land may be platted for common or public areas if adequate provision is made for continued maintenance of such areas. For areas under the control of a subdivision property owners association or similar organization, the Village may require a recorded agreement whereby the Village may

maintain the area and charge the cost thereof as a lien against all properties in the subdivision if the association fails to adequately maintain the area.

Section 11.19 Dedication.

All streets and alleys shall be dedicated to the public. Acceptance of such dedication shall be by affirmative action of the Village Council.

Section 11.20 Street Alignment and Layout.

(1) The subdivision layout shall conform to the major road and thoroughfare plan and the master plan of the Village.

(2) All proposed streets shall be continuous and in alignment with existing, planned or platted streets insofar as practicable. Streets in new subdivisions shall be at least as wide as existing streets so continued or projected.

(3) A sufficient number of streets in the said division shall extend to the boundary of the subdivision to provide the proper access to adjoining property and to future development on contiguous land.

(4) New platted streets shall have a minimum right-of-way of 66 feet in residential and light commercial plats and 86 feet in heavy commercial or industrial plats. Cul-de-sac or dead end turn around right-of-ways shall be 60 feet minimum radius in residential plats and 75 feet minimum radius in commercial-industrial plats.

(5) Dead end streets and streets terminating in a cul-de-sac shall not exceed 800 feet in length, except that a greater length may be permitted if, despite the length of the street, there will be safe and appropriate access for emergency vehicles throughout the length of the street or if access or ease of passage will be sufficiently improved by additional measures, such as periodic passing lane areas or the like.

(6) Intersections of the streets shall be at an angle of 90 degrees, or as close to such an angle as possible, but in no case more than 30 degrees from perpendicular.

(7) Each block shall have at least two sides which are at least 500 feet in length. No side of any block, however, shall be less than 250 feet or more than 1,000 feet in length. The streets shall be platted far enough apart to allow for two tiers of lots. Alleys are not permitted in residential subdivisions.

Section 11.21 Street Design Standards.

(1) Streets and cul-de-sacs in residential plats shall conform to the minimum requirements shown on the Kent County Road Commission's Standard Sections "30' Bituminous Aggregate Valley Gutter," or "27' Bituminous Aggregate with 24" Concrete Valley Gutter," and "Residential Cul-de-Sac" found in "Requirements and Specifications for Plat Development" issued by the Kent County Road Commission.

(2) Streets and cul-de-sacs in heavy commercial industrial plats shall conform to the minimum requirements shown on the Kent County Road Commission's "Standard Section for Industrial and Commercial Streets" and "Commercial Cul-de-sac." Any street with design volumes of 5,000 average trips per day or more shall conform to the "Standard Section for Industrial and Commercial Streets, for ADT Volumes of 5,000 or more" found in "Requirements and Specifications for Plat Development" issued by the Kent County Road Commission.

(3) Streets and cul-de-sacs in light commercial plats shall conform to the minimum requirements shown on the Kent County Road Commission's Standard Sections "30' Bituminous Aggregate Valley Gutter," or "27' Bituminous Aggregate with 24" Concrete Valley Gutter," with 3" Bituminous Aggregate and 8" of Gravel, as set forth in "Requirements and Specifications for Plat Development" issued by the Kent County Road Commission.

(4) Minimum street grades shall be 0.6%, and maximum grades shall be 6.0%.

(5) Permanent cul-de-sacs shall be constructed on a sufficient grade to insure a minimum 0.6% grade along the flowline of the gutter while maintaining approximately .02' per foot crown. The grade on a permanent or temporary cul-de-sac shall not exceed +3% in the direction away from the cul-de-sac, for a distance of 100' from its center.

(6) For "T" intersections, the terminated street shall have a grade between -0.6% and 2.0% in the direction away from the through street, unless the through street is superelevated.

(7) Adequate measures for storm water run off shall be provided. Storm water shall be collected by a system of catch basins and underground pipes.

Section 11.22 Street Lighting.

Adequate street lights shall be provided and dedicated to the public.

Section 11.23 Public Utilities.

Where available, public electricity, gas, cable television, water service, and sewer service shall be installed and maintained underground and in appropriate easements. Where public water and sewer is not available, adequate provisions shall be made for private on-site sewage disposal and private water wells.

Article V Variance

Section 11.24

A variance from the provisions of this chapter may be granted as follows:

(1) If the Proprietor can clearly demonstrate that literal enforcement of the terms of this chapter is impractical, or will impose undue hardship in the use of the land because of peculiar conditions pertaining to the land, the Village Council, upon recommendation of the Planning Commission, may permit such variance or variances as in its sound discretion, it finds reasonable and within the general policy and purpose of this chapter, and if the Village Council finds that:

(a) There are special circumstances or conditions affecting said property such that the strict application of the provisions of this chapter would deprive the Proprietor of reasonable use of his or her land.

(b) The variance is necessary for the preservation and enjoyment of a substantial property right of the Proprietor.

(c) The granting of the variance will not be detrimental to the public welfare or be injurious to the property in the area in which said property is situated.

(2) The Village Council may, in granting approval of variances, require such conditions as will in its judgment secure substantially the objectives of the requirements so varied or modified.

(3) A petition for any such variance shall be submitted in writing by the Proprietor at the time the preliminary plat is filed for consideration by the Planning Commission. The petition shall fully state the grounds for such variance.

Article VI Enforcement

Section 11.25

No plat shall be transmitted to any county or state approving authority for official action until each plat shall have, in the first instance, been approved by the Village Council in accordance with the requirements of this chapter.

Section 11.26

No person shall sell or convey any lot in any plat by reference thereto until such plat has been duly recorded in the office of the County Register of Deeds.

Section 11.27

Any sale or option or contract to sell, contrary to the provisions of these regulations, shall be voidable at the option of the buyer or person contracting to purchase, his or her heirs, personal representatives or assigns within two years after the execution of the document of sale or contract, but such document shall be binding upon the vendor, his or her assigns, heirs or devisees.

Section 11.28

No building permit shall be issued, and no public sewer or water service shall be provided for any dwelling or other structure located on a lot or plot subdivided or sold in violation of these regulations.

Section 11.29

Any act or failure to act done in violation of the provisions of this chapter is hereby declared to be a nuisance per se.

Section 11.30 Legal Remedies.

In addition to any other available remedy, the Village of Caledonia may in its discretion bring an action in its own name to restrain or prevent any violation of this Ordinance or any continuance of such violation. In such case the person found violating this Ordinance shall pay the Village of Caledonia's costs and expenses in enforcing this chapter, including its attorneys' fees.

Section 11.31 Approval of Division of Platted Lands.

(1) No lot, outlot or other parcel of land located in a recorded plat shall be further divided or partitioned unless such division or partition is first approved by the Village Council in accordance with this section.

(2) Whenever any proprietor or other owner desires to divide or partition a lot, outlot or other parcel of land located in a recorded plat, the proprietor or other owner shall first apply to the Village Council for approval of such division or partition. The application shall be set forth on such application form as may be provided by the Village. The application shall include a detailed statement of the reasons for the requested approval, a sketch map or maps drawn to scale and accurately showing the proposed division or partition, together with all adjoining lots, streets, easements and other parcels of land. The application shall also include statements from public agencies having jurisdiction, indicating that the proposed parcels of land shall be served by public utilities, or that such parcels can properly be served by private sewage disposal systems and private water supply wells.

(3) Except as permitted in subparagraph (4), all lots and parcels created by a division or partition shall comply with the minimum requirements for lot area, street frontage and lot width as required for the zoning district in which the lands are located, under the terms of the Village Zoning Ordinance.

(4) No building permit shall be issued for construction upon any platted lot, outlot or other parcel of land which is proposed to be divided or partitioned, or which has been divided or partitioned, unless such division or partition shall first have been approved by the Village Council in accordance with this section.

(5) A division or partition of a lot, outlot or other parcel of land which results in the creation of a parcel or parcels of a smaller area or a lesser width than is required by the Land Division Act, as amended, or the Village Zoning Ordinance, may nevertheless be approved by the Village Council in its discretion, provided, however, that any such smaller or narrower parcels created by such division or partition are contiguous with other lots or parcels of land owned by the same proprietor or other owner which, when added to the lots or parcels created by such division or partition will then comply with the minimum lot area and minimum lot width requirements of the Land Division Act, as amended, and the Village Zoning Ordinance. If approval of any such division or partition is granted pursuant to this subsection, then the parcel or parcels established by such division or partition and the contiguous lots or parcels of land required for compliance with said minimum lot area and minimum lot width requirements shall be considered as one building lot or parcel for all purposes.

(6) The application for approval of a division or partition under this section shall, when complete, be considered by the Village Council at a regular or special meeting thereof. Notice of such meeting of the Village Council shall be given by regular mail to all of the owners of and parties in interest in all lands adjacent to the lot or parcel of land proposed to be divided or partitioned, as the names and addresses of such owners and other parties are shown on the current tax assessment roll. Such notice shall be mailed not later than five days prior to the meeting at which the Village Council will consider the application for approval of the division or partition. In considering the application, the Village Council may require additional pertinent information from the applicant, and the applicant shall supply the same.

(7) In giving approval of any requested division or partition under this section, the Village Council may impose reasonable terms and conditions upon such approval, where such terms and conditions are deemed desirable by the Council and are in accordance with the goals and purposes of the Land Division Act and this Ordinance. An applicant shall fully and timely comply with all of such terms and conditions.

CHAPTER 12
SPECIAL ASSESSMENTS FOR PUBLIC IMPROVEMENTS

Section 12.1 Purpose.

The Village Council shall have the power to make any public improvement described in Section 12.3, below, and to determine that the whole or any part of the cost of any public improvement shall be defrayed by special assessments against the property especially benefited by the improvement.

Section 12.2 Costs.

The costs of a public improvement shall include all costs and expenses of purchasing, acquiring, constructing, improving, enlarging, extending, or repairing a public improvement, including any engineering, architectural, legal, accounting and financial expenses, not to exceed twelve months capitalized interest on any bonds to be issued by the Village for the public improvements and other expenses incident thereto.

Section 12.3 Public Improvements.

The term public improvement as used in this chapter shall be construed to mean any public work or public and special improvement which the Village is empowered to undertake under the laws of the State of Michigan, any part of the cost of which may be assessed against property benefited, including without limitation the following:

- (1) The construction, improvement, and maintenance of storm or sanitary sewers (or the separation thereof) or combined storm and sanitary sewer systems.
- (2) The construction, improvement, and maintenance of water systems.
- (3) The construction, improvement, and maintenance of public streets and roads.
- (4) The acquisition, improvement, and maintenance of public parks.
- (5) The collection and disposal of garbage and rubbish.
- (6) The construction, maintenance, and improvement of bicycle paths.
- (7) The construction, maintenance, repair, or improvement of erosion control structures or dikes.
- (8) The planting, maintenance, and removal of trees.
- (9) The installation, improvement, and maintenance of lighting systems.
- (10) The construction, improvement, and maintenance of sidewalks.
- (11) The eradication or control of aquatic weeds and plants.

- (12) The construction, improvement, and maintenance of private roads.
- (13) The construction improvement and maintenance of public parking systems.

Section 12.4 Initiative of Village Council; Written Objections; Petitions.

The Village Council may proceed to carry out a public improvement unless written objections to the public improvement are filed with the Village Council at or before the public hearing provided in Section 12.5 by property owners as follows:

(a) For a public improvement under Section 12.3(1), (2), (4), (5), (7), (8), (9), (11), or (13), by the record owners of land constituting more than 20% of the total land area in the proposed special assessment district.

(b) For a public improvement under Section 12.3(3), (6), (10), or (12), by the record owners of land constituting more than 20% of the total frontage upon the street, road, bicycle path, or sidewalk.

(2) The Village Council may require the filing of a petition meeting the requirements of subsection (3) before proceeding with a public improvement.

(3) If written objections are filed as provided in subsection (1), or if the Village Council requires a petition before proceeding, the Council shall not proceed with the public improvement until a petition is filed with the Village Clerk which is signed as follows:

(a) For a public improvement under Section 12.3(1), (2), (4), (5), (7), (8), (9), (11), or (13), by the record owners of the land constituting more than 50% of the total land area in the special assessment district as finally established by the Village Council.

(b) For an improvement under Section 12.3(3), (6), (10), or (12), by the record owners of land constituting more than 50% of the total frontage upon the street, road, bicycle path, or sidewalk.

(c) As used in this chapter, “record owner” means a person, sole proprietorship, partnership, association, firm, corporation, or other legal entity, possessed of the most recent fee title or land contract vendee’s interest in the land as shown by the records of the county register of deeds. Record owners shall be determined by the records in the register of deeds’ office as of the day of the filing of a petition, or if written objections are filed as provided in subsection (1), then on the day of the hearing. In determining the sufficiency of the petition, lands not subject to special assessment and lands within a public highway or alley shall not be included in computing frontage or an assessment district area. Any filed petition may be supplemented as to signature by the filing of an additional signed copy or copies of the petition, and the validity of the signatures on a supplemental petition shall be determined by the records as of the day of filing the supplemental petition.

Section 12.5 Plans and Cost Estimate; Public Hearing.

Upon receipt of a petition or upon determination of the Village Council if a petition is not required under Section 12.4, the Council, if it desires to proceed with a public improvement, shall cause to be prepared by a registered engineer plans describing the public improvement and its location together with an estimate of the cost of the public improvement on a fixed or periodic basis, as appropriate. Upon receipt of the plans and estimate of cost, the Council shall order the same to be filed with the Village Clerk. If the Council desires to proceed with the public improvement, the Council shall tentatively declare by resolution its intention to make the public improvement and tentatively designate the special assessment district against which the cost of the public improvement or a designated part of the public improvement is to be assessed.

The Council shall set a time and place for public hearing to meet and hear any objections to the petition, if a petition is required, to the public improvement and to the special assessment district, and shall cause notice of the hearing to be given as provided in Section 12.6. The notice shall state that the plans and estimates are on file with the Village Clerk for public examination and shall contain a description of the proposed special assessment district. If periodic redeterminations of cost will be necessary without a change in the special assessment district, the notice shall state that such redeterminations may be made without further notice to record owners or parties in interest in the property.

At the public hearing, or any adjournment of the hearing which may be without further notice, the Village Council shall hear any objections to the petition, if a petition is required, to the public improvement and to the special assessment district. The Council may revise, correct, amend, or change the plans, estimate of cost or special assessment district.

Property shall not be added to the special assessment district unless notice is first given as provided in Section 12.6 or by personal service upon the record owners of the property in the entire proposed special assessment district and a hearing afforded to the record owners. If a petition is required because property is added to the special assessment district which makes the original petition insufficient, then a supplemental petition shall be filed containing sufficient additional signatures of record owners. If the nature of the public improvement to be made is such that a periodic redetermination of costs will be necessary without a change in the special assessment district boundaries, the Village Council shall include in its estimate of costs any projected incremental increases. If at any time during the term of the special assessment district an actual incremental cost increase exceeds the estimate thereof by 10% or more, notice shall be given as provided in Section 12.6 and a hearing afforded to the record owners of property to be assessed.

Section 12.6 Notice of Public Hearing.

(1) Notice of hearings in special assessment proceedings shall be given to each record owner of, or party in interest in, property to be assessed whose name appears upon the last tax assessment records by first-class mail addressed to the record owner or party in interest at the address shown on the tax records, at least 10 days before the date of the hearing. The last tax assessment records means the last assessment roll for ad valorem tax purposes which was reviewed by the Board of Review, as supplemented by any subsequent changes in the names or the addresses of the owners or parties listed on that roll. If a record owner's name does not appear on the

assessment records, then notice shall be given by first-class mail addressed to the record owner at the address shown by the records of the county register of deeds at least 10 days before the date of hearing.

(2) Notice shall also be published twice before the hearing in a newspaper circulating in the Village. The first publication shall be at least 10 days before the date of the hearing.

(3) If a person claims an interest in real property whose name and correct address do not appear upon the last Village tax assessment records, that person shall file immediately his or her name and address with the Village Clerk. This filing is effective only for the purpose of establishing a record of the names and addresses of those persons entitled to notice of hearings in special assessment proceedings. The Village Clerk shall immediately enter on the tax assessment records any changes in the names and addresses of record owners or parties in interest filed with the Clerk and at all times shall keep the tax assessment records current, complete, and available for public inspection.

(4) A Village officer or employee whose duty is to give notice of hearings in special assessment proceedings may rely upon Village tax assessment records in giving notice of the hearing by mail. The method of giving notice by mail as provided in this section is declared to be the method that is most reasonably certain to inform those to be assessed of the special assessment proceedings.

(5) Failure to give notice as required in this section shall not invalidate an entire assessment roll but only the assessment on property affected by the lack of notice. A special assessment shall not be declared invalid as to any property if the record owner or the party in interest of that property actually received notice, waived notice, or paid any part of the special assessment. If an assessment is declared void by court decree or judgment, a reassessment against the property may be made.

Section 12.7 Approval; Preparation of Special Assessment Roll.

If, after the hearing provided for in Section 12.5, the Village Council desires to proceed with the public improvement, the Council shall approve or determine by resolution all of the following:

(1) The completion of the public improvement.

(2) The plans and estimate of cost as originally presented or as revised, corrected, amended, or changed.

(3) The sufficiency of the petition for the public improvement if a petition is required. After this determination, the sufficiency of the petition shall not be subject to attack except in an action brought in a court of competent jurisdiction within 30 days after the adoption of the resolution determining such sufficiency.

(4) The special assessment district including the term of the special assessment district's existence. If the nature of the public improvement to be made is such that a periodic redetermination of cost will be necessary without a change in the special assessment district boundaries, the Village Council shall so state in the resolution and shall set the dates upon which such redeterminations shall

be made. After finally determining the special assessment district, the Council shall direct the Village Assessor to make a special assessment roll in which are entered and described all the parcels of land to be assessed, with the names of the respective record owners of each parcel, if known, and the total amount to be assessed against each parcel of land, which amount shall be the relative portion of the whole sum to be levied against all parcels of land in the special assessment district as the benefit to the parcel of land bears to the total benefit to all parcels of land in the special assessment district. When the Assessor completes the assessment roll, the Assessor shall affix his or her certificate to the roll which certificate states that the roll was made pursuant to a resolution of the Council adopted on a specific date, and that in making the assessment roll the Assessor, according to his or her best judgment, has conformed in all respects to the directions contained in the resolution and applicable state law.

Section 12.8 Public Hearing; Confirmation of Special Assessment Roll.

(1) When a special assessment roll is reported by the Assessor to the Village Council, the special assessment roll shall be filed in the office of the Village Clerk. Before confirming the special assessment roll, the Council shall appoint a time and place for a public hearing when it will meet, review, and hear any objections to the special assessment roll. The Council shall give notice of the hearing and the filing of the assessment roll as provided in Section 12.6.

(2) A hearing under this section may be adjourned from time to time without further notice. A person objecting to the assessment roll shall file the objection in writing with the Village Clerk before the close of the public hearing or within such further time as the Village Council may grant. After the hearing the Council, at the same or at a subsequent meeting, may confirm the special assessment roll as reported to the Council by the Assessor or as amended or corrected by the Council; may refer the assessment roll back to the Assessor for revision, or may annul it and direct a new roll to be made.

(3) If a special assessment roll is confirmed, the Clerk shall endorse on the assessment roll the date of confirmation. After the confirmation of the special assessment roll, all assessments on that special assessment roll shall be final and conclusive, unless an action to contest or enjoin an assessment is instituted in compliance with subsection (4).

(4) No action of any kind shall be instituted for the purpose of contesting or enjoining the collection of any special assessment unless, within 45 days after the confirmation of the special assessment roll, written notice is given to the Council indicating an intention to file such an action and stating the grounds on which it is claimed that the assessment is illegal and unless that action is commenced within 90 days after the confirmation of the roll.

(5) Subject to Section 12.16, if a portion of an assessment roll is determined to be illegal, in whole or in part the Council may revoke its confirmation, correct the illegality, if possible, and reconfirm it. Property which is not involved in the illegality shall not be assessed more than was imposed upon the original confirmation without further notice and hearing thereon.

Section 12.9 Payment of Special Assessments.

(1) The Council may provide that special assessments are payable in one or more installments, but the amount of an installment shall not be less than one-half of any subsequent installment. The amount of each installment, if more than one, need not be extended upon the special assessment roll until after confirmation of that assessment roll. Subject to the provisions of Section 12.5(4), the amount of installments for improvements subject to periodic cost revision may be extended upon the special assessment roll by the Village Council without additional public hearings or public notice, provided that additional property is not added to the special assessment district.

(2) The first installment of a special assessment shall be due on or before the time after confirmation as the Village Council shall fix. Subsequent installments shall be due at intervals of 12 months from the due date of the first installment or from a date the Council shall fix.

(3) The unpaid balance of special assessments shall bear interest, payable annually on each installment due date, at a rate to be set by the Village Council, not exceeding 1% above the average rate of interest borne by special assessment bonds issued by the Village in anticipation of all or part of the unpaid installments; or not exceeding 1% above the average rate of interest borne by bonds issued by the County, a drainage district, or an authority if the unpaid installments are to be applied to the payment of a contract obligation of the Village to the drainage district; or, if bonds are not issued by the Village, a county, a drainage district, or an authority, not exceeding 8% per annum, commencing in each case from a date fixed by the Village Council. Future due installments of an assessment against any parcel of land may be paid to the Village Treasurer at any time in full, with interest accrued through the month in which the final installment is paid.

(4) If an installment of special assessment is not paid when due, then the installment shall be considered to be delinquent and there shall be collected, in addition to interest as provided by this section, a penalty at the rate of not more than 1% for each month, or fraction of a month, that the installment remains unpaid before being reported to the Village Council for reassessment upon the Village Tax Roll pursuant to Section 12.13, or before being returned to the County as delinquent pursuant to Section 12.22.

Section 12.10 Lien.

(1) All special assessments contained in any special assessment roll, including any part thereof deferred as to payment, and all interest thereon, shall from the date of confirmation of such roll, constitute a lien upon the respective parcels of land assessed. Such lien shall be of the same character and effect as the lien created for Village taxes and shall include accrued interest and penalties. No judgment or decree or any act of the Village Council vacating a special assessment shall destroy or impair the lien of the Village upon the premises assessed for such amount of the assessment as may be equitably charged against the same, or as by a regular mode of proceeding might be lawfully assessed thereon.

(2) The full amount of the special assessment and all interest thereon shall also be a debt of the person to whom assessed until paid and, in the case of delinquency, may be collected as delinquent village property taxes pursuant to Section 12.13 or by a suit against said person.

Section 12.11 Collection of Special Assessments.

When any special assessment roll shall be confirmed, the Village Council shall direct the assessments made therein to be collected. The Village Clerk shall thereupon deliver to the Village Treasurer the special assessment roll, to which he or she shall attach his or her warrant commanding the Treasurer to collect the special assessments therein in accordance with directions of the Council in respect thereto. Said warrant shall further require the Treasurer on the 1st day of April following the date when any such assessments or any part thereof have become due to submit to the Village Council a sworn statement setting forth the names of the persons delinquent, if known, a description of the parcels of land upon which there are delinquent assessments and the amount of such delinquency, including accrued interest and penalties computed to said April 1. Upon receiving such special assessment roll and warrant the Village Treasurer shall proceed to collect the several amounts assessed therein as the same shall become due.

Section 12.12 Hardship Deferral of Special Assessment.

The Village Council may enact an ordinance to define hardship and to permit deferred or partial payment of a special assessment pursuant to this section. As a condition of granting the deferred or partial payment of a special assessment, the Village Council shall require that any deferred assessment will constitute a recorded lien against the property.

Section 12.13 Reassessment of Delinquent Special Assessments.

In case the Village Treasurer shall report as delinquent any assessment or part thereof, the Village Council shall certify the same to be reassessed on the annual Tax Roll for such year in a column headed "special assessments," with interest and penalties to April 1 of such year, and an additional penalty of 6% of the total amount. Thereafter the provisions of Act 206 of the Public Acts of Michigan of 1893, as amended, as the same relate to the collection of Village ad valorem property taxes shall apply to the collection of said special assessments.

Section 12.14 Division of Parcels.

Should any parcel of land be divided after a special assessment thereon has been confirmed, and before the collection thereof, the Village Council may require the Assessor to apportion the uncollected amounts between the several divisions thereof and the report of such apportionment when confirmed by the Council shall be conclusive upon all parties: Provided, that if the interested parties do not agree in writing to such apportionment, then before such apportionment, notice of public hearing shall be given to all the interested parties in the manner provided by Section 12.6. Following the public hearing, the Council may apportion the special assessment between the divisions of the parcel.

Section 12.15 Additional Assessments; Refunds.

Should the assessments in any special assessment roll prove insufficient for any reason, including the noncollection thereof, to pay for the costs of the public improvement for which they were made or to pay the principal and interest on the bonds issued in anticipation of the collection thereof, then the Village Council shall make additional pro rata assessments to supply the deficiency. Should the total amount collected on assessments prove larger than necessary by more than 5% of

the original roll, then the surplus shall be prorated among the properties assessed in accordance with the amount assessed against each and applied toward the payment of the next Village ad valorem tax levied against such properties, respectively; or, in the alternative, it shall be refunded to the persons who are the respective record owners of the properties on the date of the passage of the resolution ordering such refund. Any such surplus of 5% or less may be paid into the Village General Fund.

Section 12.16 Procedure In Case of Illegal Assessments.

Subject to Section 12.8(5), whenever any special assessment shall, in the opinion of the Village Council, be invalid by reason of irregularities or informalities in the proceedings, or if any court of competent jurisdiction shall adjudge such assessment to be illegal, the Village Council shall, whether the public improvement has been made or not, and whether any part of the assessment has been paid or not, have power to proceed from the last step at which the proceedings were legal and cause a new special assessment to be made for the same purpose for which the former special assessment was made. All proceedings on such reassessment and for the collection thereof shall be conducted in the same manner as provided for the original special assessment, and whenever any assessment or any part thereof levied upon any premises has been so set aside, if the same has been paid and not refunded, the payment so made shall be applied upon the reassessment.

Section 12.17 Agreement to Pay Assessment.

The governing body of any public or private corporation whose lands are exempt by law may, by resolution, agree to pay the special assessments against such lands, and in such case the assessment, including all the installments thereof, shall be a valid claim against such corporation.

Section 12.18 Bonds.

The Village Council may borrow money and issue the bonds of the Village therefor in anticipation of the collection of special assessments to defray all or any part of the cost of any public improvement made after the special assessment roll therefor shall have been confirmed. Such bonds shall be issued in accordance with the requirements of Act 215 of the Public Acts of Michigan of 1895, as amended and Act 202 of the Public Acts of Michigan of 1943, as amended, and other applicable laws.

Section 12.19 Alternate Procedure for Contract Obligations.

The Village Council may determine that the whole or any part of an obligation of the Village assessed or contracted for pursuant to Act No. 342 of the Public Acts of 1939, as amended; Act No. 185 of the Public Acts of 1957, as amended; Act No. 40 of the Public Acts of 1956, as amended; and Act No. 233 of the Public Acts of 1955, as amended, shall be defrayed by special assessments against the property specially benefited thereby and in such case, the special assessments may be levied and collected in accordance with this chapter except that the requirements of Section 12.4 with respect to requiring a petition and of Section 12.5 with respect to the hearing therein required shall not apply to any special assessments levied and collected in accordance with this section and the above described acts.

Section 12.20 Alternate Procedure When All Record Owners Consent.

If all of the record owners of lands to be included within a special assessment district petition the Village Council to make a public improvement and/or levy special assessments pursuant to this chapter, the property owners may also request that the Village waive the public notice and hearing required by this chapter. If the Village Council, in its sole discretion, decides to grant such request for waiver, the procedure set forth in this chapter shall be followed, except that the public notice and hearing requirements set forth in Sections 12.5, 12.6, and 12.8 shall not apply. Before proceeding in this manner, all record owners and other interested parties shall execute a written consent to special assessment and waiver of hearing and notice containing such provisions and in such form as is approved by the Village.

Section 12.21 Procedure for Drain Assessments.

If the Village contemplates levying special assessments to defray the Village's obligation pursuant to Chapters 20 and 21 of the Drain Code of 1956, then, notwithstanding Sections 12.19 and 12.20, the Village Council shall provide for and conduct the public hearings provided for by Sections 463, 489a, and 490 of the Drain Code before the Village Council files its petition for improvements pursuant to Chapters 20 or 21 of the Drain Code.

Section 12.22 Alternative Method for Collection of Special Assessments.

In lieu of the reassessment provided for in Sections 12.11 and 12.13, the Village Council may provide by resolution for the Treasurer to cause to be included as a delinquent tax any unpaid special assessment which is delinquent on the last day of February in the delinquent taxes returned to the County Treasurer the next day, pursuant to Section 55 of Act 206 of the Public Acts of Michigan of 1983, as amended. A delinquent special assessment included as a delinquent tax pursuant to this section shall, after returned to the County Treasurer, be a valid tax for all purposes.

**CHAPTER 13
OUTDOOR FURNACES**

(Ord. No. 08-001)

AN ORDINANCE to regulate the installation and use of outdoor furnaces.

THE VILLAGE OF CALEDONIA ORDAINS:

Section 13.1 Purpose.

The purpose of this Ordinance is to establish and impose restrictions upon the construction and operation of outdoor furnaces within the limits of the Village of Caledonia so as to secure and promote the public health, safety and welfare of the Village and its inhabitants. Outdoor furnaces can create noxious and hazardous smoke, soot, fumes, odors, air pollution, particles and other products of combustion, particularly when restricted airflow and low operating temperatures are present. These products can be detrimental to citizens' health and can deprive neighboring residents of the enjoyment of their property. These regulations are intended to eliminate noxious and hazardous conditions caused by outdoor furnaces.

Section 13.2 Outdoor Furnaces Defined.

For purposes of this ordinance, the term "outdoor furnace" shall mean a furnace, stove or boiler that is not located within a building or structure intended for habitation by humans or domestic animals, but that provides heat or hot water for such building or structure.

Section 13.3 Regulations.

An outdoor furnace shall not be permitted within the Village unless it complies with each of the following regulations:

A. **Setback.** The outdoor furnace shall be located no less than 100 feet from any existing residence or occupied structure which is not on the same property as the outdoor furnace and no less than 50 feet from the nearest property line of another property. An outdoor furnace shall not be located within any yard fronting on a street.

B. **Chimney Height.** The chimney shall be no less than 20 feet in height and shall also extend no less than two feet above the highest roof peak of the residence or structure that it serves. If there are any residences or occupied structures not served by the outdoor furnace located within 300 feet of the outdoor furnace, the chimney of the outdoor furnace shall also extend no less than two feet above the highest point of the roofs of such structures. All chimneys shall have a spark arrester installed at the top of the chimney.

The Zoning Administrator, or such other person as is designated by the Village Council to enforce ordinances, may approve a lesser height on a case by case basis if necessary to comply with manufacturer's recommendations and if the smoke from the lower chimney height does not create a nuisance for neighbors. Insulated chimneys are recommended.

C. **Open Ground Area.** An area with a radius of ten feet around the outdoor furnace shall be free of vegetation, except grass not exceeding four inches in length.

D. **Appropriate Furnace Size.** Outdoor furnaces shall be appropriately designed for the size of the structure to be heated. An outdoor furnace designed to heat structures more than 10 percent greater than the size of the structure to be heated shall not be permitted.

E. **Fuel.** No fuel other than natural wood without additives, wood pellets without additives, and agricultural seeds in their natural state may be burned. The following materials are specifically prohibited:

(1) Rubbish or garbage, including but not limited to food waste, food wraps, packaging, animal carcasses, paint or painted materials, furniture, composite shingles, construction or demolition debris or other household or business wastes.

(2) Waste oil or other oily wastes.

(3) Asphalt and products containing asphalt.

(4) Treated or painted wood including, but not limited to plywood, composite wood products or other wood products that are painted, varnished or treated with preservatives.

(5) Any plastic material including, but not limited to nylon, PVC, ABS, polystyrene or urethane foam, and synthetic fabrics, plastic films and plastic containers.

(6) Rubber, including tires and synthetic rubber-like products.

(7) Newspapers, corrugated cardboard, container board or office paper.

Section 13.4 Permit.

The owner of an outdoor furnace shall obtain a permit from the Village, according to the following provisions:

A. **Application Information.** The applicant for a permit shall submit the following information:

(1) Verification that the outdoor furnace will comply with the manufacturer's specifications for such outdoor furnace.

(2) Verification that the outdoor furnace will comply with all applicable state and federal statutes.

(3) A drawing providing the location of the proposed outdoor furnace and of nearby residences, together with the height of all applicable roofs, so as to establish compliance with all regulations contained in this Ordinance.

B. **Application Permit; Fee.** The Zoning Administrator, or such other person as is designated by the Village Council to enforce ordinances, shall review each application and issue a

permit to such applicants as meet the requirements contained in this ordinance. The Village Council may establish by resolution a fee for the processing of outdoor furnace permit applications.

Section 13.5 Liability.

A person using or maintaining an outdoor furnace shall be responsible for all fire suppression, costs and other liability resulting from damage caused by the outdoor furnace. Compliance with this Ordinance shall not be a defense to any civil claims. Nothing in this Ordinance shall authorize any installation or use that is a public or private nuisance, regardless of compliance herewith.

Section 13.6 Severability.

The sections and provisions of this ordinance are severable and any portion which is declared inoperative or invalid for any reason by a court of competent jurisdiction shall in no way affect the remaining sections or provisions of this ordinance.

Section 13.7 Penalty.

A. Failure to comply with the requirements of this Ordinance is hereby declared to be a nuisance per se. A violation of this Ordinance is a municipal civil infraction, for which the fine shall not be less than \$100.00 nor more than \$500.00 for the first offense and not less than \$200.00 nor more than \$1,000.00 for subsequent offenses, in the discretion of the court and in addition to all other costs, damages and expenses provided by law. For purposes of this section, “subsequent offense” means a violation of the provisions of this Ordinance committed by the same person within 12 months of a previous violation of the same provision of this Ordinance for which said person admitted responsibility or was adjudicated to be responsible.

B. Each day during which any violation continues shall be deemed a separate offense.

C. The foregoing penalty shall not prohibit the Village from seeking injunctive relief against a violator or such other appropriate relief as may be provided by law.

Section 13.8 Publication/Effective Date.

This Ordinance shall become effective 20 days after publication of a summary of its provisions thereof in a local newspaper of general circulation within the Village.

Adopted: July 14, 2008

Effective: August 15, 2008

In the regulation of rates for basic cable television service and associated equipment, the Village shall follow all FCC Rules.

Section 4. Procedures; Filing of Rate Schedules; Submission of Information by Cable Television Operator.

(1) The procedures under which the Village shall regulate the rates charged for basic cable television service within the Village shall be as set forth in this Ordinance.

(2) A cable television operator shall submit its schedule of rates for basic cable television service and associated equipment or a proposed increase in such rates in accordance with the Act and the FCC Rules. The cable television operator shall also submit with its proposed schedule of rates such information as may be necessary to demonstrate that its schedule of rates or its proposed increase in rates complies with the Act and the FCC Rules. The cable television operator shall file ten (10) copies of its schedule of rates or its proposed increase in rates with the Village Clerk. Such filing by the cable television operator shall be deemed to have been made when ten (10) copies thereof have been received by the Village Clerk.

(3) By resolution or otherwise, the Village Council may adopt rules and regulations prescribing the information, data, calculations and other material which the Village requires to be included as a part of the filing of a schedule of rates or a proposed increase in rates by a cable television operator.

(4) In addition to information, data, calculations and other material required by rules and regulations of the Village, a cable television operator shall provide all other information requested by the Village Council in connection with the Village’s review and regulation of existing rates for basic cable television service and associated equipment or a proposed increase in such rates. Section 5. Notice; Initial Review of Rates.

Upon the filing of ten (10) copies of the schedule of rates or a proposed increase of rates by the cable television operator, pursuant to this Ordinance, the Village Clerk shall publish a public notice in a newspaper of general circulation in the Village. The notice shall state that the filing has been received by the Village Clerk and (except those parts which may be withheld as proprietary under Section 6 hereof) is available for public inspection and copying; that interested parties are encouraged to submit written comments on the schedule of rates or proposed increase in rates, to the Village Clerk, not later than seven (7) days after the public notice is published; and any other information deemed pertinent. The Village Clerk shall give notice to the cable television operator of the date, time and place of the meeting in which the Village Council shall first consider the schedule of rates or the proposed increase in rates. Such notice to the cable television operator shall be mailed by first-class mail at least three days prior to the meeting of the Village Council. The cable television operator may request, however, that specific, clearly identified portions of its response be treated as confidential and be withheld from public disclosure, for the reason that such stated portions are proprietary. Such request must state the reasons why the information should be treated as proprietary and the facts supporting such reasons. The Village Council may grant the request for confidentiality of such information if the Board determines that the preponderance of the evidence shows that non-disclosure of such information is consistent with the provisions of the Freedom of Information Act, 5 U.S.C. § 552. The Village Clerk shall place in a file available for public inspection any written decision that results in information being withheld. If the cable television operator requests confidentiality of allegedly proprietary information, and such request is denied, the cable television operator may withdraw its proposal, in cases in which the cable operator is proposing a rate increase, and in that event the allegedly proprietary information shall be returned to the cable television operator; alternatively, the cable television operator may seek review within 5 business days of the denial of such request for confidentiality, in any appropriate forum, and in that event the Village's release of such information shall be stayed, pending resolution of the review being sought.

(2) Any interested party may file with the Village Clerk a written request to inspect material withheld as proprietary. In responding to such request, the Village shall consider the policy considerations favoring non-disclosure and shall also consider the reasons cited for permitting inspection of the material, in relation to the facts of the particular case. Upon reaching a decision regarding whether withheld material shall then be disclosed, the Village shall promptly notify the requesting party and the cable television operator that submitted the information in question. The Village may grant, deny or grant with conditions any such request. The party requesting disclosure of such information or the cable television operator may seek review of the Village's decision by filing an appeal in any appropriate forum. Pending resolution of any such appeal, disclosure by the Village of such information or material shall be stayed.

(3) The procedures set forth in this section shall be construed as analogous to and consistent with the rules of the FCC regarding requests for confidentiality including, without limitation, 47 CFR § 0.459.

Section 7. Effective Date of Rates; Order Tolling Effective Date of Rates.

After a cable television operator has filed its existing schedule of rates or its proposed increase in rates, the existing schedule of rates will remain in effect or the proposed increase in rates will become effective after thirty (30) days from the date of filing under Section 5 of this Ordinance unless the Village Council (or other properly authorized body or official) tolls such thirty (30) day period pursuant to 47 CFR § 76.933 by issuing a brief written order, by resolution or otherwise, within thirty (30) days of the date of filing. The Village Council may by such order toll the thirty (30) day period for an additional ninety (90) days in cases not involving cost-of-service showings or for an additional one hundred and fifty (150) days in cases involving cost-of-service showings.

Section 8. Hearing on Basic Cable Service Rates Following Tolling of 30-Day Deadline; Public Notice.

(4) If a written order has been issued pursuant to Section 7 of this Ordinance and 47 CFR § 76.933 so as to toll the effective date of existing rates for basic cable television service and associated equipment or a proposed increase in such rates, the cable television operator shall submit to the Village any additional information required or requested pursuant to Section 4(4) of this Ordinance.

(5) In addition, the Village Council shall hold a public hearing to consider the comments of interested parties within the additional 90 day or 150 day, as the case may be.

(6) The Village Clerk shall publish a notice of the public hearing in a newspaper of general circulation within the Village. The notice shall state the date, time and place at which the hearing will be held; the fact that interested parties may appear in person, by agent or by letter at such hearing, in order to submit comments on or objections to the existing cable television rates or the proposed increase in rates; and that copies of the schedule of rates or the proposed increase in rates and related information (except those parts which may be withheld as proprietary) are available for inspection or copying from the Village Clerk. Such notice shall be published not less than 15 days before the public hearing. In addition, the Village Clerk shall mail by first-class mail a copy of the public notice to the cable television operator not less than 15 days before the public hearing.

Section 9. Report of Staff or Consultant; Written Response.

Following the public hearing provided for in Section 8, the Village Council may cause a written report to be prepared for the Board by the Village's staff or consultants. The report may include a recommendation for a decision by the Village Council regarding cable television rates pursuant to Section 10. Such a report shall be based on the material and information filed by the cable television operator, the comments or objections of interested parties, information requested from the cable television operator, review or comment by Village staff or consultants and other appropriate information. If such a report is submitted, the Village Clerk shall mail a copy of it to the cable television operator by first-class mail not less than 20 days before the decision by Village Council under Section 10. The cable television operator may file with the Village Clerk a written response to the report. The Village Clerk shall forward the written response of the cable television operator to the Village Council, if the response is received by the Clerk within 10 days after the report is mailed by the cable television operator and at least 10 copies of the response are submitted to the Clerk.

Section 10. Decision and Order on Rates.

The Village Council shall issue an order, by resolution or otherwise, which in whole or in part, (1) approves the existing rates for basic cable television service and associated equipment or a proposed increase in such rates; (2) denies the existing basic cable television rates or proposed increase in such rates; (3) orders a reduction in the existing rates or in the proposed increase in rates; (4) prescribes a reasonable rate or reasonable increase in rates; (5) allows the existing cable television rates or proposed increase in rates to become effective subject to refunds; or (6) orders other appropriate relief; all in accordance with the FCC Rules. If the Village Council issues an order allowing the existing basic television rates or proposed increase in rates to become effective subject to refund, the Village Council shall also direct the cable television operator to maintain an accounting pursuant to 47 CFR § 76.933. The order of the Village Council shall be issued within 90 days of the tolling order under Section 7 in all cases not involving cost-of-service showing. The order shall be issued within 150 days after the tolling order under Section 7 in all cases involving a cost-of-service showing.

Section 11. Refunds; Notice.

The Village Council may order a refund to cable television subscribers as provided in 47 CFR § 76.942. Before the Village Council orders a refund to subscribers, the Village Clerk shall give at least 7 days written notice to the cable television operator by first-class mail of the date, time and place at which the Village Council shall consider issuing a refund order and shall provide an opportunity for the cable television operator to comment regarding the proposed refund. The cable television operator may appear in person, by agent, or by letter at such time, for the purpose of submitting comments to the Village Council.

Section 12. Written Decisions; Public Notice.

Any order of the Village Council pursuant to Section 10 or Section 11 shall be in writing, shall be effective upon adoption by the Village Council, and shall be deemed released to the public upon adoption. The Village Clerk shall publish a public notice of any such written order in a

newspaper of general circulation within the Village, which shall (1) summarize the written decision, and (2) state that copies of the text of the written decision are available for inspection or copying from the office of the Village Clerk. In addition, the Village Clerk shall mail a copy of the test of the written decision to the cable television operator by first-class mail.

Section 13. Rules and Regulations.

In addition to rules promulgated pursuant to Section 4, the Village Council may, by resolution or otherwise, adopt rules and regulations for basic cable television service rate regulation proceedings (including, without limitation, the conduct of hearings), consistent with the Act and the FCC Rules.

Section 14. Failure to Give Notice.
